Candle Eco

Product information

GE's HaloCandle range is a direct replacement for regular incandescent lamps offering a crisp white light. These bulbs are the environmentally friendly solution for those who prefer the features and light quality associated with incandescent bulbs. * Last twice as long and consume up to 30% less electricity than corresponding incandescent lamps. * Provide instant-on, full light output at start-up and lumens are maintained throughout the life of the product. * Unlike some compact fluorescent products, these lamps are 100% retrofit with the incandescent lamps they replace. * Can be used with dimming switches. * Environmentally friendly with no lead or mercury. * Up to 2,000 hours life * Excellent colour rendering, light close to natural (100% CRI) * More than 90% lumen maintenance over life
