

28watt SES E14 Small Screw Cap Clear Equivalent to 40watt Halogen Golfball

The Opus Pro Range halogen energy saving light bulbs offer traditional shapes of bulb with improved energy efficiency, allowing for reductions in running costs by up to 30% and an extended 2000 hour average rated life on each lamp. These retro fit new halogen replacement bulbs give a high quality of warm light, an instant start and are fully dimmable. The Opus Pro Range includes standard GLS, Candle and Golfball shapes with an equivalent light output to match all incandescent lamps that have now been phased out and are perfect for lighting in domestic or commercial applications.

Special features :

- Compact dimensions
